

WELCOME to the entertainment medium that has been referred to as the "Theater of the Mind." You, the individual listener, actually set the scene of the action in your own mind as you hear the vivid description of tense drama, hilarious comedy, frightening fancy, and astounding fact. No single listener imagines the programs the same as another. This was YESTERDAY'S RADIO. Hopefully, this sampling of radio programs from the 1930's, 40's, and 50's will help you to return to "those thrilling days of yesteryear."

HOW TO ORDER

All programs are recorded on new good quality reel to reel tape at 3 3/4 IPS or on C - 60 cassette.

All programs are available on:

7 inch 1800 or 1200 foot reels as designated in the catalog and recorded in

4 TRACK MODE with each track recorded separately. This is not stereo, but makes use of the separate recording and playback capabilities of home stereo decks.

2 TRACK MODE (half track) for those who do not have 4 track capabilities.

C - 60 CASSETTE 30 minutes of playing time per side, shipped in a hinged plastic box.

SOUND QUALITY: It should be understood that radio programs were transcribed or recorded before the days of high fidelity sound. Therefore the top sound quality that is available today was not generally possible during the era of great radio programs. All the reels in this catalog have been rated as to sound quality using the following symbols.

EX - Excellent: The sound quality is nearly perfect.

VG - Very Good: Slight noise and or flaw (hum, static, record or tape hiss).

G - Good: The show must be listened to with concentration. Most programs of this quality are not included in this catalog.

F - Poor: The show is very hard to listen to and some parts may be unintelligible. Most program of this quality are not included in this catalog.
